The Voice and Soul of Austin

BlackLight, born Reginald DeVore, Jr., was born in central America and raised in Texas. An early musician - from the church choir to high school band and, eventually, the **Recording Conservatory of Austin, TX** - he has an affinity for music in it's various forms. After a two year internship at **Matchbox Studios**, he continues to produce and engineer music for bands from across the United States. Since 2017, BlackLight has been recording his own works as a Hip Hop artist.

The **Audio-Engineer-turned-artist** and his co-producer/drummer, Wisuchee, describe **BlackLight's** style of Hip Hop as mainly **anthem music, touching on Sociopolitical themes as necessary**. BlackLight has performed at Music Festivals such as **Red Gorilla Fest** and **RhymeTime! Fest**, as well as your local **6th street favorites** and venues in **Honolulu, Dallas, Arlington, and San Marcos**.

BlackLight's latest projects include the June 2019 release of a 4 song EP, "**King**," the "**King Vibe Only**" multi-city tour, a feature in **Almost Real Things** magazine, and a collaboration with Austin EDM/Jazz band, **Dub Equis**.

Future and **ongoing projects** include the production of his next **two EPs**, competing in the **2019 Unsigned Only International Songwriting Competition** and performing live.
